Skincare Routine: The Secrets to Healthy, Radiant Skin

A skincare routine is not just about taking care of your skin, removing makeup, or cleansing your face. It's a time for yourself—a time for relaxation and well-being. A good beauty routine is essential for giving your skin a radiant, fresh appearance. The goal? Protect your skin from external aggressors and pollution, which promote premature aging.

The Right Steps

A skincare routine follows precise rules, involving the use of certain products at specific times and in a specific order.

The Steps in an Evening Skincare Routine

The evening is the ideal time to devote a few minutes to your skincare routine. Removing all traces of makeup, thoroughly cleansing the skin, and moisturizing are essential steps to take at the end of the day. This ensures the effective removal of all the dirt particles that have accumulated on the face throughout the day. Moreover, the skincare products you apply in the evening will have plenty of time to work overnight, leaving you with beautiful skin when you wake up.

1. Makeup removal (CS001; CS002)
2. Cleansing (LV019; LV020; LV021)
3. Exfoliate (LV004; LV022; CS004; EL004)
4. Apply a mask (LV001; LV002; LV003; EL010)
5. Use a tonic (LV023)
6. Apply serum (EL006; EL007; EL008; EL009)
7. Pat the eye contour area (EL001; EL002; EL003)
8. Massage face cream (LV009, LV010A; LV011; LV014; LV015; EL005; LV024)

The Steps in a Morning Skincare Routine

Even in the morning, your skin needs care and attention. The steps to follow in the morning are linked to the products you need to apply before any makeup:

1. Cleansing the skin (LV019; LV020; LV021)
2. Use the tonic (LV023)
3. Apply serum (EL006; EL007; EL008; EL009)
4. Pat the eye contour area (EL001; EL002; EL003)
5. Massage face cream (LV009, LV010A; LV011; LV014; LV015; EL005; LV024)

The right skincare routine can make all the difference to the health and appearance of your skin.

The Ambrosiyaly range was created to provide concrete support for everyday well-being, through supplements developed with particular attention to quality and innovation. It is a collection designed for those who want to feel better every day, with practical and targeted products capable of adapting to the different rhythms of modern life.

The range is structured around three complementary areas: **Energy & Sport**, dedicated to vitality, focus, and recovery; **Well-Being & Beauty**, designed to support balance and care for yourself from within; and **Daily Defense**, ideal for supporting the body's natural defenses and facing seasonal changes and stress with greater peace of mind.

Each Ambrosiyaly product is 100% Made in Italy, the result of research, passion, and attention to detail. Since ancient times, Greek mythology has told of the existence of a legendary food: ambrosia, the nourishment of the gods, capable of bringing strength, beauty, and eternal vitality. It is from this inspiration that Ambrosiyaly was born: our **"Nectar for People"**, created to bring daily well-being and value into everyone's life.
